KEY TO SYMBOLS USED ON PMA DOCKETS

Explanation of Docket

A docket is the authority to expend Capital Funds of the Commodity Credit Corporation or Section 32 Funds. Docket symbols have been designed to provide information relative to the Fiscal Year, Funds Used for Purchase, Type of Program, and the Commodity.

First letter of Symbol indicates Fiscal Year in which Program is conducted and when used alone ALWAYS denotes Section 32 Funds.

(example) M Fiscal Year 1946 Section 32 Funds

Second letter C ALWAYS indicates Price Support Program with Commodity Credit Capital Funds.

(example) MC 1946 Fiscal Year, Capital Funds (CCC)

Third letter (if one is shown) or symbol, for CCC Program — or second letter or symbol adjacent to first letter M, indicates Type of Program.

(example) 'L Loan Program
 S Subsidy Program
 I Imported commodity, or commodity produced
 outside the United States
 U Special program designed specifically to
 meet the requirements of UNRRA, or other
 claimants
 D Disposal Program
 - Purchase Program
 x Export Program
 / Diversion Program

Following the letters or symbol is the numerical commodity index.

(example) 1 School Lunch
 2 Wheat or Wheat Flour
 3 Irish Potatoes
 4 Butter
 5 Fluid Milk

Last letter (small) of docket symbol indicates whether first, second or third program of Fiscal Year.

(example) a First Program
 b Second Program
 c Third Program

Note: There are exceptions to this. When there are several types of programs on one commodity the "a" is usually assigned to first program, but not always. The cotton programs furnish a good example: M/72b = Cotton for Paper Program; M/72a = Cotton Improvement Planting Seed Program.
